Jason – Thank you for the information. This likely involves the work related to the Removal Action that our emergency response crew is working on right now. I'll keep you posted if I hear more and please do likewise. I know that Emergency Response has DRMS working with them on the plugging of the Red & Bonita which is right next to the Gold King.

Attached is a report for San Juan County, headed for Silverton, of a mine blowout and release of at least a million gallons of orange water to Upper Cement Creek and to the Animas River. Water is continuing to release from the mine at a slower rate.

DRMS requested that WQ assist with notification of downstream users, and Tom Schaffer has begun this process.

Thank you,

Ann

Ann Nedrow
